

Use our MasterLink™ Software!

MasterLink™ remote Windows® based payroll software developed by Payroll Masters, is an advanced software tool that will help you control the flow of employee information, manage, and process your payroll. You determine the level of hands-on involvement you want in the payroll process. Enter employee hours and dollars or import TODD time card totals each pay period. Generate your own payroll reports on-demand with the option of printing your own payroll checks. Our payroll specialists review your MasterLink™ data before it's processed and are available to guide you through your payroll.

Human Resources/Data Services

MasterLink™ will help you organize employee records and track labor costs by department. Choose from salary information, benefit plan contributions, compensation planning, performance appraisal management, equal opportunity/ADA compliance, absence management, emergency contacts and other essential HR data sets. Make quick decisions with these powerful management tools. Spend less time on administrative duties and more time on strategic analysis.

Report Capabilities

Included are custom report and integrated query building capabilities, with import/export functions. Export your check register, labor distribution, 401(k) report, deduction register and new hire report. Information is compatible with general ledger programs, accommodating both cash and accrual accounting methods to make balancing your checkbook simple and easy.

Training

We provide training on-site and at our facility. Our ongoing technical support will keep your business systems running smoothly.

**You determine the level of hands on
involvement you want in the payroll process**

**MasterLink™ allows you to spend
less time on administrative duties
and more time on strategic analysis**

Start Now!

All you need is a Windows based PC and/or network. It's simple and easy to learn. You'll have MasterLink™ up and running in no time. Up-to-date payroll data is sent to Payroll Masters™ via modem or high speed internet connection for immediate processing. Your transmissions are completely confidential and uninterrupted. In return, you receive the same fast and accurate payroll processing, checks, reports and tax service you've always had from Payroll Masters™. As always a live payroll specialist is just a convenient phone call away for person-to-person communication.

Developed by Payroll Masters™ & PayMaster Payroll Systems, Inc.
